CASHMAN SEED COMPANY Owatonna, Minn.

114 E. Vine, across from Chevrolet Garage

NOTICE—We make **NO CHARGE FOR BAGS** as prices include bags which are weighed in as part of quantity given.

POSTAGE—We deliver **FREE** all Vegetable and Flower Seeds in packets, ounces, quarter pounds and pounds. For larger amounts add 8c per pound to list price. Purchaser pays transit on Green Seeds, Farm Seeds, Potatoes, Implements, Insecticides, Poultry Supplies, etc.

GUARANTEE—Most of the failures of seeds, bulbs, plants, etc., are due to causes entirely beyond our control, such as soil conditions, unfavorable weather, time and manner of planting, etc. For these reasons it would be impractical to guarantee seeds, therefore, the Cashman Seed Company, gives no warranty, express or implied, as to description, quality, productiveness, or any other matter on any seeds, bulbs, plants, etc., we send out and will not be in any way responsible for the crop. If not accepted on these conditions, return at once, and money will be refunded.

"Good Seeds at the Lowest Price Possible" Is Our Aim

DEAR FRIENDS:

Planting time will soon be here again. Each day the sun is getting higher and we turn our interest toward the things that grow. Seeds are needed. Last year most crops were short in the northwest, consequently many varieties of seeds are scarce. We have been fortunate in gathering a fair supply of most of the varieties of seeds needed for this section and were most particular in their selection. We have purchased only northern grown grass seeds and grains acclimated to this section. **WE WILL NOT SACRIFICE QUALITY AS WE HAVE BUILT OUR BUSINESS ON THE THEORY THAT THE BEST AND HARDEST SEEDS OBTAINABLE ARE WHAT OUR CUSTOMERS WANT.** But by cutting our overhead to the minimum and by not sending out an expensive catalog we can furnish the best quality seed that money can buy at prices equal to wholesale. In this letter we will endeavor to give you information on outstanding and new varieties telling you where they were grown and why, in our opinion, they are the seeds you will want.

ORDER EARLY. The early purchaser has a great advantage. Prices are usually at their lowest, but the greatest advantage is in being able to purchase stocks that have been thoroughly tested, are in the seedman's warehouse and you have plenty of opportunity to test them yourself. When seed is bought at the last minute, either by the dealer or the farmer, there is not the opportunity nor the time to make these searching tests that should be made.

IMPORTANT—**WE WILL HOLD, FOR LATER SHIPMENT, ANY ORDER OF VEGETABLE, FLOWER, GRAINS OR GRASS SEEDS UPON WHICH 25% OF THE AMOUNT HAS BEEN PAID AND WE WILL PROTECT YOU AGAINST PRICE ADVANCES. WHEN SHIPMENT IS TO BE MADE EITHER SEND THE BALANCE DUE OR WE WILL SHIP C. O. D. IF A C. O. D. SHIPMENT IS DESIRED A SMALL CHARGE FOR RETURNING THE REMITTANCE WILL BE ADDED.**

Potatoes, Onion Sets, Plants, Bulbs and Nursery Stock are shipped when weather conditions permit. The customer will be notified. Safe delivery is guaranteed. Should a shipment reach you in bad condition, notify us at once.

Alfalfa will head the list this year and is probably the most valuable hay crop we grow. We only handle Northern Grown seed and you will find listed at reasonable prices **REGISTERED BLUE TAG GRIMM ALFALFA, COSSACK ALFALFA, MONTANA AND MINNESOTA ALFALFA.** We have beautiful clean seed in these varieties. As for samples they are free.

MINNESOTA GROWN MEDIUM RED

Medium Red Clover has always played a leading part in the hay and fertilizing crop. Our seed is all purchased tributary to Owatonna, tested thoroughly with a purity of 99.50% or better and cleaned over both our Clipper and Gravity mills, bringing it to the highest quality possible.

SWEET CLOVER

To obtain good clean Sweet Clover Seed is very important. For fertilizing and pasture purposes Sweet Clover can not be beaten. We are most particular about our Sweet Clover as it is one of the hardest varieties of seed to get pure. Ask for our samples.

CASHMAN'S LAWN GRASS MIXTURE

We have specialized for years in good lawn grass. We believe that it pays to put in only the highest grades of Kentucky Blue Grass and other grasses that go to make up a lawn grass. Less of this kind of seed is required to obtain a successful stand. One pound will seed a plot 10x25 or 250 square feet.

PHALARIS OR REED'S CANARY GRASS SEED

Is of great interest to the farmers who have low or peaty ground that they want to seed down permanently. It forms a wonderful sod and makes it possible to cut the grass on ground that horses or machinery could not be put on before. The quality of the hay is high, exceeding such grasses as Timothy, Red Top, etc. We have fine, clean seed of high germination in this variety to offer our customers this year.

SPECIAL CARE SHOULD BE GIVEN IN YOUR SELECTION OF SEED CORN THIS YEAR

It is well to know where your seed corn was grown and from what seed stocks. Good seed corn is scarce this year and corn will be offered for seed that in ordinary years would only be used for feed purposes. We are especially fortunate in having carried over several hundred bushels of Certified Minnesota No. 13 that was grown in 1933, also a good quantity of Cashman's Yellow Dent, both testing strong 98%. We offer these while they last.

CLEAN HOME GROWN SEED GRAINS

Registered Gopher Oats No. 674

Home Grown Clean Kherson Oats

Registered Velvet Barley No. 447

Red Wing Rust and Wilt Resistant Flax

All of the above varieties are grown on our own farms here at Owatonna. The fields thoroughly gone over before the grain was cut for mixtures and weeds, making it possible to furnish clean seed.

THE NEW RED WING FLAX

It is not only wilt resistant, but rust resistant. This seed is home grown and free from mustard and other noxious weeds. It is a big yielder, an early ripener, and we recommend it to our customers.

Don't forget we are handling the finest strains of vegetable and flower seeds we are able to obtain.

We will not offer any seeds for sale that our tests show to contain noxious weeds. We have been fortunate in being able to grow a large amount of our seeds on our farms here in Steele County, where we have the opportunity of sowing clean seed and also of extracting all foreign mixtures before the crop is harvested. This is the surest way of knowing that your seeds are clean when they reach the bin or sack. We hope to hear from all our old friends, and we are always delighted to hear from new customers.

In order that you may know just what we have to offer in grasses and field seeds send for our samples, they are free. Have them tested. We will furnish seed that is identical to the samples that we send you.

We want to thank our customers for the nice business given us in the past and assure you we are anxious to serve you for the coming year.

Yours for **QUALITY AND SERVICE,**

CASHMAN SEED COMPANY

Dial 8292

Price List February 1, 1935

Prices quoted below are subject to market changes and to stocks being unsold. Write for new price list before ordering if you should not have one of recent date. Orders placed promptly will be accepted at prices quoted on this list, and you will be given the advantage of any price decline. In case of an advance in prices you will be notified prior to shipment of order or seeds will be sent you to the value of your remittance.

CASHMAN'S NORTHERN GROWN GRASS SEEDS

Our Clovers, Timothy and Alfalfa Seed are all Northern Grown.

We do not offer any southern or imported seed. You can absolutely rely upon our **CASHMAN BRAND.** These seeds have a purity test of over 99% and are high in germination. Prices include bags weighed in as part of quantity given. **WRITE FOR SAMPLES—THEY ARE FREE.**

OUR GARDEN AND FLOWER SECTION

Thoroughly Tested Garden and Flower Seeds
of the Best Strains for the Northwest

ORDER EARLY—IT PAYS

Every person who has a plot of ground should grow a garden this year. There are many reasons, principally I might mention Economy, Health, Superior quality of the vegetable, and the interest that is reaped from the home vegetable plot. There is a flavor and tenderness in home-grown things not to be had in store vegetables. We are listing the well known old reliables that you have grown many times with success. We are slow to list many untried vegetables or flowers as experience has shown us that it takes a long time to prove a new variety is as good as one of the old reliables and much longer still to prove that it is better. We must have the best that is obtainable.

SPECIAL OFFER FOR ORDERS RECEIVED BEFORE APRIL FIRST—For every retail cash order for \$2.00 or more for **VEGETABLE AND FLOWER SEEDS** received by us before April first we offer a premium in the form of additional goods to the amount of 10% of the order. No discount given on orders received after April first.
